LISA ERIKSEN

Front-end developer

@ **Contact:** lisa.eriksen@epitech.eu

Portfolio: www.lisaeriksen.eu

EXPERIENCE

Front-end developer

Barnabé

📅 2025 📍 Paris, France

- Frontend development of two complete web applications for a real estate agency with Angular 19, TypeScript and Tailwind
- Used signals for reactivity, NgXs for state management and a ports and adapters architecture for scalability and clean structure
- UX design and prototyping with Figma
- Created responsive layouts and optimized usability

Physics lab instructor

Saint-Louis Superior School

📅 2015 - 2018 📍 Paris, France

- Supervised physics lab sessions for preparatory classes
- Managed physics lab, equipment procurement and experiment design
- Examiner for first- and second-year students in physics

Physics and chemistry teacher

French International Schools

📅 2011 - 2024 📍 France - Venezuela - Peru

- Taught physics at the secondary level in multicultural environments.
- Teaching Python for physics data analysis and visualization

EDUCATION

Web and mobile application development (RNCP5)

Epitech

📅 2024 📍 Barcelona, Spain

- Learned algorithmic thinking and problem-solving
- Built dynamic web applications using React.js and Angular
- Developed RESTful APIs with Node.js, using MySQL and MongoDB
- Gained real-world experience through collaborative projects.

Master's Degree in Education

Institute of Versailles

📅 2011 📍 Paris, France

- Specialized in pedagogy and learning sciences.

Master's Degree in Physics and Chemistry

University of Paris-Saclay

📅 2010 📍 Paris, France

- Developed strong analytical and problem-solving skills through laboratory work and theoretical studies. Focus on scientific rigor, experimentation, and data analysis.

SUMMARY

Web developer with a background in physics, specializing in TypeScript. Experienced in building web applications with Angular and React, with a focus on clean and maintainable code. Based in Spain.

PROJECTS

Barnabé – Real estate agency platform

Lead front-end developer— designed, developed and deployed the entire frontend using Angular 19 and Tailwind.
